Articles

Approximate calculation of weight functions for cracks under mixed mode loading
H. Moldenhauer and C. Mattheck 193

Cyclic properties of coarse-grained cast austenitic manganese steels
D. Rittel and I. Roman 177

Damage accumulation and fatigue crack propagation in a squeeze-formed aluminium alloy
A. Plumtree and B. P. D. O'Connor 249

Effect of carbon content and microstructure on near threshold crack propagation
M. T. Yu and T. H. Topper 335

Effect of heat treatment on fatigue crack growth in Ti-6Al-3.5Mo-1.9Zr-0.23Si alloy
Vikas Kumar Saxena and G. Malakondaiah 423

Effect of laser surface alloying chromium onto AISI 1018 steel on the fatigue crack growth rate
Ji-Liang Doong and Yen-Hung Tan 239

Effect of mean stress on cyclic stress-strain response and high cycle fatigue life
P. Lukáš and L. Kunz 55

The effect of microstructure on stage-II fatigue crack growth rates in 2.5 Ni-Cr-Mo-V steel
S. K. Bhambri, V. Singh and G. Jayaraman 51

Effect of skin-core morphology on fatigue crack propagation in injection moulded polypropylene homopolymer
J. Karger-Kocsis and K. Friedrich 161

Effect of split-sleeve cold-expansion on the fatigue resistance of hot-rolled 1020 steel
C. P. Stack and R. I. Stephens 327

Effect of stress ratio on the cyclic tension corrosion fatigue life of notched steel BS970:976M33 in sea water with cathodic protection
W. J. D. Jones and A. P. Blackie 417

Effect of surface roughness on low-cycle fatigue life of Cr-Mo-V steel at 550 °C
J. H. Ryu and S. W. Nam 433

Effect of thickness on fatigue behaviour of notched plates
G. Bhuyan and O. Vosikovsky 261

Experimental verification of fatigue life predictions for discrete strain Markov processes
D. J. Dowdell, H. H. E. Leipholz and T. H. Topper 19

Fatigue and fracture of a zine die casting alloy
C. S. Shin and N. A. Fleck 341

Fatigue characteristics of joints with holes cold-expanded in a multi-layer stack
J. Y. Mann, J. G. Sparrow and P. W. Beaver 214

Fatigue crack growth and microscopic crack opening behaviour under impact fatigue load
T. Tanaka, K. Kinoshita and H. Nakayama 117

A fatigue damage evolution law for laser beam irradiated cylindrical specimens
Li Changchun, Zhou Yawen, Li Xiping and Li Guangxia 183

The fatigue failure of large diameter six strand wire rope
N. F. Casey and W. K. Lee 78

Fatigue life prediction for hybrid composites
T. Adam, G. Fernando, R. F. Dickson, H. Reiter and B. Harris 233

Fatigue life prediction from the viewpoint of internal stress and effective stress
M. Matsuda and Y. Ikai

Fractographic and microstructural analysis of fatigue crack growth in a Ti-6Al-4V fan disc forging
R. J. H. Wanhill, R. Galatolo and C. E. W. Looije 407

Gel electrode imaging of fatigue cracks in steel
W. J. Baxter and D. W. Gorkiewicz 347

Growth and coalescence of two colinear indentation cracks in glass
M. Yoda 429

The influence of microstress on the effective fatigue threshold
Du Bai-ping and Li Nian 43

Influence of prestrain and ageing on near-threshold fatigue crack growth in fine-grained DP-steels
J. Wasén and B. Karlsson 395

Influence of the radius of curvature at the weld toe in the fatigue strength of fillet welded joints
J. A. Martins Ferreira and C. A. Moura Branco 29

Investigation of cyclic hysteresis

energy in fatigue failure process
Tong Xiao-yan, Wang De-jun and Xu Hao 353
Limitations in the use of RMS values and equivalent stresses in variable amplitude loading
C. M. Sonsino 142
Local strain approach to fatigue crack formation life at notches
R. L. Jones, M. A. Phoplonker and J. Byrne 255
The mathematical background for applying multiple axes random stress histories in the fatigue testing of offshore tubular joints
J. C. P. Kam and W. D. Dover 319
A model for JT_J-controlled fatigue crack growth
P. Will and B. Michel 125
Multiaxial fatigue endurance of 30NCD16 steel
C. Froustey and S. Lasserre 169
A numerical investigation of the interaction and coalescence of twin coplanar semi-elliptical fatigue cracks
K. Kishimoto, W. O. Soboyejo, R. A. Smith and J. F. Knott 91
Observation of crack closure using a crack mouth opening displacement gauge
K. K. Brahma, P. D. Dash and B. Dattaguru 37
Plastic zones about fatigue cracks in metals
G. Nicoletto 107
Prediction of fatigue crack initiation lives for welded plate T-joints based on the local stress-strain approach
G. Bhuyan and O. Vosikovsky 153
Prediction of fatigue life under aircraft loading with and without use of material memory rules
A. Buch 97
A procedure for the rational choice of microalloyed steels for automatic hot-forged components subjects to fatigue loads
A. Blarasin and P. Farsetti 13
Quantitative evaluation of effects of non-metallic inclusions on fatigue strength of high strength steels. I: Basic fatigue mechanism and evaluation of correlation between the fatigue fracture stress and the size and location of non-metallic inclusions
Y. Murakami, S. Kodama and S. Konuma 291
Quantitative evaluation of effects of non-metallic inclusions on fatigue strength of high strength steels. II: Fatigue limit evaluation based on statistics for extreme values of inclusion size
Y. Murakami and H. Usuki 301
Scanning electron microscope studies on tension fatigue failure of high density polyethylene filled natural rubber vulcanizate
J. Kurian, T. K. Chaki, G. B. Nando and S. K. De 129
The significance of weld toe undercuts in the fatigue of steel plate T-joints
R. Bell, O. Vosikovsky and S. A. Bain 3
Size effect on the fatigue behaviour of IMI 829 titanium alloy under dwell conditions
Z. Song and D. W. Hoeppner 85
Spectral density functions and the development of Wave Action Standard History (WASH) load histories
L. P. Pook 221
Statistical analysis of fatigue behaviour of spot-welded joints in tension–shear-type loading
T. Sakai, T. Kikuchi, K. Fujitani and T. Tanaka 269
Tension fatigue analysis and life prediction for composite laminates
T. K. O'Brien, M. Rigamonti and C. Zanotti 379
Torsional and biaxial (tension-torsion) fatigue damage mechanisms in waspaloy at room temperature
N. Jayaraman and M. M. Ditmars 309

Research Report

Observations on evaluating fatigue crack closure from compliance traces
R. E. Garz and M. N. James 437

are you writing a book?

Butterworth Scientific – Publishers for the Professional Engineer

Books and Journals

Authors interested in the area of the Fatigue of Materials are invited to discuss proposals for books with our staff. We are always interested in meeting new authors and we are happy to develop ideas and material for publication.

Every proposal is carefully evaluated and we offer advice and help to maximise the success of each project. Market demands are identified for every title and an international promotion plan is implemented.

If you would like to publish your work with Butterworths please contact:
